**Agenda Approval:**

Facebook as a public page  
Survey and how to distribute

**Facebook Public Page**

There was discussion concerning developing a facebook page that is public. Currently, the facebook page is a closed page with only approved members. We could reach a lot more community members with information. We could also use the approximately 120 members of our current facebook page to reach out to for information.

The team needs to think about using a paper and digital survey to reach the largest cross section of community members.

The survey that was developed by the evaluators touch the information that is needed from the community. There is statistics available from the returned surveys from last fall. The Resident Team will look at the survey to determine if there are other questions. The answers should be examined to see where TCV has fallen short.

**Critical Thinking**
